

KARL JAEHNIG

+1(352) 328-0288 ◦ Nashville, TN

jaehnig.k@gmail.com ◦ [linkedin.com/in/karljaehnig](https://www.linkedin.com/in/karljaehnig) ◦ <https://kjaehnig.github.io>

• Innovative • Discerning • Driven • Collaborative • Industrious

SKILLS

Programming	Python, Rstudio, C++
Libraries	Numpy, Scipy, SciKit-Learn, Pandas, Tensorflow, Keras, PyMC-3, EMCEE
ML Techniques	Data: Mining, Wrangling, Cleaning, Feature Extraction, Model: Selection, Validation
ML Algorithms	Clustering, Mixture Models, Gaussian Processes, Decision Trees, Random Forests
Neural Networks	CNN, ANN, Deep-Learning
Software Dev	Github, Docker, Jupyter
Databases	SQL, SQLite-3
Visualization	Matplotlib, Bokeh, Seaborn, Plotly, Glue-Viz

EXPERIENCE

Researcher Vanderbilt University	Jan 2022 - Present <i>Nashville, TN</i>
--	--

- Constructed neural network for population parameter inference
- Performed model validation of clustering pipeline with noisy synthetic data
- Mentored junior researcher on multivariate clustering project

Data Scientist Flatiron Institute	Aug 2021 - Jan 2022 <i>New York, NY</i>
---	--

- Constructed Bayesian inference framework using noisy time-series data
- Employed Gaussian process models for red+white noise in time-series data
- Mined data from multiple SQL databases using custom written python code

Graduate Researcher Vanderbilt University	Jan 2019 - Aug 2021 <i>Nashville, TN</i>
---	---

- Designed unsupervised clustering pipeline for noisy data (> 20 million rows)
- Implemented python code that generate hundreds of custom SQL queries
- Validated cluster identifications with probabilistic Minimum Spanning Tree analysis
- Increased cluster member identification sensitivity by 11%

Graduate Researcher/Lecturer Vanderbilt University	Aug 2017 - Jan 2019 <i>Nashville, TN</i>
--	---

- Improved non-linear constraints on anomaly classification
- Constructed Bayesian Monte Carlo inference model of evolution of population parameters
- Lectured >100 person astrophysics class

EDUCATION

Ph.D. , Vanderbilt University Astrophysics	Expected 2023
--	---------------

Master of Science , Fisk University Physics	2015 - 2017
---	-------------

Bachelor of Science , University of Florida Astronomy	2007 - 2011
---	-------------
